by BiblePuzzles.com

HOW TO PLAY: Using the letter tiles given, make a word that forms part of everyday English. Words that are not allowed include pronouns (words always capitalised), abbreviations, acronyms, prefixes, suffixes, and words requiring a hyphen or apostrophe. Each letter tile may only be used once. Blank tiles can be used as any letter, but have a value of zero. The first letter of the word must start in the first square of the grid, reading from left to right.

SCORING: Add up the values on each tile used in your word, multiplying the value of any tile that falls on a letter bonus. Word bonuses are applied to the entire word after adding the scores of the letters together.

KJV BONUS: For any valid word you make that also appears in the KJV Bible you earn a bonus double word score. This is in addition to any other letter or word bonuses. You may find a concordance useful.

7-LETTER BONUS: If you use all seven tiles in your word add an extra 50 points after applying all other bonuses.
